Dear Mr. Carlock:

Thank you for the opportunity to give you an update on the Insular Territories during your recent visit to Region 9. As we discussed, the Zone Contractor will be conducting a remedial investigation/feasibility study of the Insular Territories' highest priority sites during November through December. I have enclosed a copy of the work plan for your information.

I expect that the Corps of Engineers will become actively involved in this project in February 1983, based on the schedule of activities on page 17 of the work plan. We will advise you as that time approaches. If you have any questions in the interim, please call me at (415) 974-7076 or Marvin Young at (415) 974-8142.

Sincerely yours,

Keith A. Takata
Chief, Remedial Response Section
Toxics & Waste Management Division

Enclosure
